Reference is made to the great success of the Society, has sustained by the great Mr Granville Sharp, who was, we might say, the best public speaker in Hongkong, being in a class by himself. Dance at Kewloon Dock.
On Saturday a most enjoyable entertainment was provided at the Kewloon Docks in the dance arranged by the Volunteer Committee of the residents of Dock Company's premises at Hong Kong. From seven to nine o'clock there was dancing. A string band of the Volunteer Band provided a most excellent music to a nicely arranged programme. The Committee and all the residents attended most assiduously for the entertainment of their guests, and the motive of the success of these on the part of the men passed rather too late. The guests are deeply appreciative of the kind hospitality of the hosts and the high quality of the entertainment are looked forward to as pleasant incidents in their lives.

On a Soldier of an Artillery Sergeant.
On Saturday, Sergeant Williams of the Royal Artillery, committed suicide by shooting himself with a .45 Victoria Bore. The attention of the deceased's comrades was drawn to the report of the carbine, and seeing the room the body was found, which showed that the deceased had put the muzzle of the carbine in his mouth and pulled the trigger. Passed through the ceiling into the room, penetrated a bed and in which Sergeant Todd had just been buried itself in the ceiling of the room. The deceased leaves a widow and three children. He had just been discharged from the hospital with an incurable illness, and it is thought that his misfortune resulted in his being temporarily deranged.

The New Arms Ordinance.
The Bill to amend and consolidate the law relating to the carrying of arms and ammunition, which was introduced in the Legislative Council, imposes some very severe restrictions on the carrying of arms. The "objection" attached to the Bill is the trade in arms and ammunition, which has been increased so much in the last few years that it is almost impossible to restrict supervision. The increase of arms is a result of the adjacent provinces of the Government, to the detriment of the Government, the necessity of supervision. The annual destruction of arms is valued at the amount of £10,000,000 in the last year, and the Government is now

The New Arms Ordinance.

The Bill to amend and consolidate the law relating to the carriage of arms and ammunition, which was read a third time in the Legislative Council, imposes some very severe restrictions on the carrying of arms. The Bill is attached to the Bill to amend the law in arms and ammunition, and the Bill is increased to much in the number of arms and ammunition, and it is thought desirable that it should be subject to strict supervision. An increase of armed robbery is the adjacent prevalence of the law, and the detriment of the law is diminished the necessity of supervision. The annual death in arms is valued at the cost of \$10,000, and it is thought that it is desirable for the purpose of the law to be more strictly supervised. CHAMBERLAIN'S PAIN BALM CURES
OTHERS, WHY NOT YOU?
MY Wife has been using Chamberlain's
Pain Balm, with good results, for a
 lame shoulder that has pained her continu-

ally for nine years. We have tried all kinds of medicines and doctors without receiving any benefit from any of them. One day we saw an advertisement for this medicine and thought of trying it, which we did with the best of satisfaction. She has used only one bottle and her shoulder is almost well.—
